THE ERA OF ONLINE LEARNING

Future of education!

The digital divide, which prevented vast numbers of students at OM from experiencing enriched immersive online learning because they don't have access to high functioning computing equipment, have low bandwidth internet connectivity, are only able to use mobile phones or devices, have to compete to use digital resources in the home with siblings and working parents, or don't have parent and caretaker support and guidance in technology use, etc.

So, everyone, at OM Foundation decided to help them by providing tablets with data packs so that their studies is not impacted. Due to immense support from our partners, we were able to provide students with new tablets along with data packs. The tablets also have in-built CBSE curriculum for reference.
